**Selected Explanatory Notes pursuant to Part A of Appendix 9B of the Listing Requirement**

**B1 Review of performance**

The Group's revenue of RM484.3 million for the quarter under review was 103.5% higher than the preceding year's corresponding quarter of RM238.0 million mainly due to the turnover from Perwaja Steel Sdn Bhd and Perfect Channel Sdn Bhd. Profit after taxation for the quarter under review had also improved by RM40.4 million or 684.7% to RM46.3 million as compared to the preceding year's corresponding quarter of RM5.9 million due to better margins on upstream and midstream products.

**B2 Comparison with preceding quarter's results**

The Group's revenue for the second quarter ended 30 June 2007 increased by RM20.8 million or 4.5 % to RM484.3 million, as compared to RM463.5 million in the preceding quarter. This is mainly due the Group's upstream and further downstream activities. During the quarter under review, the midstream activities were affected by the relatively soft market of construction steel. However, despite the lower sales volume of midstream products, the revenue remains quite constant due to the increase in selling prices.

The Group achieved a profit before tax of RM43.3 million for the quarter under review which is 9.8% lower than the profit before tax of RM48.0 million in the preceding quarter. This is attributable to higher raw material prices and freight charges.

**B3 Current year prospects**

The present slow construction market is expected to pick up in the next few quarters when the 9th Malaysian Plan ("9MP") comes on stream. Based on the increased level of activity in the pile and concrete sectors, the 9MP is expected to roll out in due course. The recent imposition of export duties by China on its steel products is expected to stabilise the international steel prices and the strong demand in the upstream and midstream products. In addition, the Group is poised to expand its export allocation to 40% by venturing into the South East Asia, Europe and Middle East markets.

The Group will be able to cater to the strong demand with its greater ability to produce various ranges of steel products. Barring unforeseen circumstances and/or any external factors negatively affecting the economy and/or the steel industry, the Board believes the Group is on course to achieving its target revenue for year 2008.

It should be noted that the target revenue mentioned above represents internal management's aim for growth. The target by internal management was derived based on expected increase in contribution from its subsidiaries and the Group's capability to fully utilize its enlarged production capacity. It is not an estimate, forecast or projection and the internal targets have not been reviewed by the external auditors.
